FISCAL ANALYSIS

ASSUMPTION

Oversight was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

In response to similar legislation filed this year (part of HB 304), officials at the **Missouri Ethics Commission (MEC)** assumed the implementation of this proposal would require the following additional resources:

The proposed legislation would require modifications to the current Personal Financial Disclosure (PFD) filing system to allow certain filers to file a second PFD. Modifying the current system will entail 80 hours to design and develop one page. The development includes programming, testing and analysis. MEC estimates a total of 80 hours for this modification.

Oversight assumes that the MEC has programmers on staff to handle the reprogramming of the computer systems and would not need to contract for these services. MEC did not reduce its programming staff when the campaign limits were repealed with SB 1038 and therefore the current FTE should be able to handle the increased programming responsibilities.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

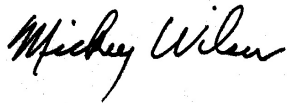

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
